

LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: VOX Collegiate of Los Angeles

CDS Code: 19647330137521

School Year: 2023-24

LEA contact information: Jasmine Banks

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2023-24 School Year

This chart shows the total general purpose revenue VOX Collegiate of Los Angeles expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for VOX Collegiate of Los Angeles is \$3,568,060.00, of which \$2,558,849.00 is Local Control Funding Formula (LCFF), \$433,833.00 is other state funds, \$226,170.00 is local funds, and \$349,208.00 is federal funds. Of the \$2,558,849.00 in LCFF Funds, \$712,904.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much VOX Collegiate of Los Angeles plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: VOX Collegiate of Los Angeles plans to spend \$3,398,191.00 for the 2023-24 school year. Of that amount, \$2,922,769.00 is tied to actions/services in the LCAP and \$475,422.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

[Respond to prompt here]

Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, VOX Collegiate of Los Angeles is projecting it will receive \$712,904.00 based on the enrollment of foster youth, English learner, and low-income students. VOX Collegiate of Los Angeles must describe how it intends to increase or improve services for high needs students in the LCAP. VOX Collegiate of Los Angeles plans to spend \$718,415.00 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2022-23

This chart compares what VOX Collegiate of Los Angeles budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what VOX Collegiate of Los Angeles estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, VOX Collegiate of Los Angeles's LCAP budgeted \$646,802.00 for planned actions to increase or improve services for high needs students. VOX Collegiate of Los Angeles actually spent \$614,520.00 for actions to increase or improve services for high needs students in 2022-23. The difference between the budgeted and actual expenditures of \$32,282.00 had the following impact on VOX Collegiate of Los Angeles's ability to increase or improve services for high needs students:

Plan Summary 2023-24

General Information

A description of the LEA, its schools, and its students.

Vox Collegiate of Los Angeles' ("Vox Collegiate") mission is to prepare all students in grades 6-8 to succeed in college and beyond, knowing the power and potential of their voices. Vox Collegiate opened in August of 2018 with 42 6th and 7th grade students with plans to grow to a full 6-12 school. Vox Collegiate has an extended school day, with a focus on core math and literacy instruction, for which additional instructional time is allocated. Other core components of the program include an Advisory period devoted to social and emotional learning, a speech and debate instruction focused on developing student communication skills, and enrichment periods focused on exposing students to development of skills in non-academic areas. Academic classes are aligned to the Common Core State Standards (CCSS), with courses designed to prepare students to thrive in rigorous, collegiate classes by the time they graduate high school.

In 2022-23, Vox Collegiate served 185 students, representing a 25% enrollment increase from the 2021-22 school year. The majority of Vox Collegiate students come from traditionally underserved communities, including low-income students, underrepresented minorities, and English learners: approximately 95% of students qualify for Free or Reduced Lunch; and 26% of students are English Learners. In addition, about 10% of students qualify for special education services. The LCFF Unduplicated percentage is approximately 95%. Approximately, 83% of Vox Collegiate's students identify as being Hispanic or Latino, 17% as African American, 0% as white.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Vox Collegiate which is the Schoolwide Program; herein referred to as the LCAP. The Charter School's plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements compliant to include focusing on three goals: Vox Collegiate will foster a safe and positive school culture and climate; Vox Collegiate will ensure that all students are academically prepared for high school by the time they leave 8th grade; Vox Collegiate will partner with parents to ensure parents are informed about their child's progress and have opportunities to be involved at the school. Vox Collegiate completed a comprehensive needs

assessment of the entire school which included an analysis of verifiable state data and well as local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting parents, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

The identification of the process for evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the School Site Council which will include parents of English Learners. The School Site Council will meet at least four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Vox Collegiate based on student achievement data to include CAASPP, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

The goals and measurable achievement theretoward reflects Vox Collegiate's commitment to rebuilding a safe, strong, and joyous school after the school closures caused by the COVID-19 pandemic. In the 22-23 school year, the second year of the current LCAP cycle, Vox Collegiate has made significant progress towards achieving our desired goals.

Safety and School Climate:

In 2022-23, we maintained a suspension rate in line with school goals. We are proud of our staff, students, families, and community partners for maintaining a high degree of student connection and safety which has allowed us to keep student discipline rates at or below target levels. Specifically, our planned actions related to "Restorative Practices" and "Social Emotional Learning and Mental Health" provided our students with on-site opportunities to manage internal and external conflicts in a healthy way to avoid incidents of violence and school disruption.

Academics:

According to annual NWEA MAP and initial CAASPP results that have been released as of the passage of this LCAP, Vox Collegiate has continued to make academic progress for students. NWEA MAP results show greater than 1-year's annual growth for students in both math and ELA across all grade levels (spring 22 to spring 23). CAASPP results evidence that instructional systems and practices instituted since the start of this LCAP cycle are closing the gap between student proficiency at Vox Collegiate and other students across California.

Parent Engagement and Satisfaction:

According to the 2022-2023 End of Year Family survey, families are pleased with Vox Collegiate. The results show that 100% of families that completed the survey agree or strongly agree in response to all questions asked. These questions consisted of having families reflect on the positive impact of the academic and social emotional supports for students, effective schoolwide communication, and the intentional collaboration between the school and parents.

Suspension Rate & School Climate:

Annual student suspension and expulsion rates, evidenced in the CA school dashboard, shows that Vox Collegiate has continued to maintain appropriately low student suspension and expulsion rates of 0.6% and 0% respectively. Since its founding year in 2018, Vox has focused on maintaining a safe school environment that employs alternatives to suspension and expulsion as methods of school discipline.

Subgroup Suspension Rates -

- African American - 2.8%, medium (1 student)
- Socioeconomically Disadvantaged - 0.7% low
- English Learners - 0%, very low
- Hispanic - 0% very low

English Learner Progress:

Vox Collegiate's English Learner Progress has also continued an upward trend, improving year over year. Medium with 54.3% of students making progress towards proficiency goals, progressing at least one level. The greatest contributor towards this progress for English learners is Vox's continued push towards small group instruction and additional designated ELD opportunities for students.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Based on the 2022 CA Dashboard, there are a number of areas of need for Vox Collegiate that are addressed in this LCAP, some of which towards significant progress was made during the 2022-23 school year.

Chronic Absenteeism:

Vox Collegiate's chronic absenteeism rated as very high on the 2022 CA Dashboard, with a rate of 55.1%. The rate was additionally alarming for African American students, measuring 71.4%. Much of the absenteeism rate was due to continued recovery from the COVID-19 pandemic. In previous years, students were allowed, and at times encouraged, to maintain attendance despite minor cold symptoms. However, due to the risk of COVID-19, students with such symptoms were not allowed to attend school during the 2021-22 school year. Additionally, students who tested positive for COVID-19 or were exposed were required to quarantine from school, sometime extending student absences to 10 school days. Because of the health risks associated with attending school while sick, the school paused traditional incentives for attendance in order to not pressure students to choose between community health and individual rewards. Some of those incentives have been reimplemented for the 2022-23 school year and have yielded positive results. Additionally, the school increased office capacity to support and follow-up with families regarding absences to ensure that students are in school when healthy.

Academic Performance as measured by CAASPP for math and ELA is a major area of growth for Vox Collegiate. ELA performance was low at 59.2 points below standard. Math performance was very low at 121.4 points below standard. Specifically, performance for African American students and English Learners proved to be significantly further below standard than overall school measures. The gaps for African American students qualifies Vox Collegiate for Additional Targeted Support and Improvement to ensure that African American students are being fully supported towards their academic goals. As referenced throughout this documents, and as outlined in new goals for 2023-24, Vox Collegiate is taking steps to focus additional resources towards closing achievement gaps for African American students.

Part of the explanation for this performance connects directly to COVID-19 and the previous year and half of distance learning throughout Los Angeles. While learning loss was and is a priority for Vox Collegiate, student health, safety, and reacclimation to an in-person learning environment were antecedent needs to ensuring students were in an environment where learning could occur. Despite challenges in academic achievement on CAASPP, Vox students did show significant growth on the NWEA MAP assessment. In 2022-23 Vox Collegiate invested in additional staffing to provide additional academic support, including small group instruction and intervention. While 2022-23 CAASPP data has not been finalized, initial results evidence large improvement in both math and ELA for returning Vox students.

The creation and maintenance of a strong school culture continues to be an important need at Vox Collegiate as we continue to grow. Last year we brought our suspension rate down, and we plan to decrease it further over the next several years. To address suspension rates and chronic absenteeism, we will continue our focus on implementation of restorative discipline policies and practices, social emotional learning, providing mental health support to students, and improving our communication and coordination around attendance.

In 2021-22, we encountered challenges with chronic absenteeism which affected our ability to be able to consistently implement some of our strategies and priority actions. Our school leadership team anticipates that this experience will support planning for the 22-23 school year.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The 2021-24 LCAP provides our three-year plan for continued improvement and development. In 2023-24 we will continue the specific actions undertaken to address the varied academic and social-emotional needs of our students.

GOAL 1: Vox Collegiate will foster a safe and positive school culture and climate. In terms of our work to maintain a positive culture and climate (Goal 1), students are supported in Social Emotional Learning as well as supportive practices in behavior, attendance, and student activities as well as a clean and safe environment. We implement school spirit traditions and student activities, as well as a comprehensive Positive Behavior Supports and Intervention program schoolwide. We incorporate mental health supports into our program.

GOAL 2: Vox Collegiate will ensure that all students are academically prepared for high school by the time they complete 8th grade. In terms of student achievement (Goal 2), we will continue providing a comprehensive standards-aligned instructional program in conjunction with a comprehensive assessment system. We will use the results of assessments to differentiate instruction within classrooms and to inform our system of intervention. Teachers will be supported through professional development to implement our curriculum and instructional model, including specific support for new teachers and a comprehensive system of teacher observation and coaching. We will provide systemic English Language Development for our English learners and a comprehensive SPED program for our students with IEPs.

GOAL 3: Vox Collegiate will partner with parents to ensure parents are informed about their child's progress and have opportunities to be involved at the school. Families will be supported to participate actively in the life of the school and their child's education through regular meetings, events, and opportunities for input. These opportunities include Monthly Cafecitos with the principal and Family Fun Nights. We will use multiple methods of communication to keep parents informed about their students' progress including regular messages sent through our parent communication platform and parent conferences.

In 2023-24 we will include specific actions to address the varied academic and social-emotional needs of our African American students.

GOAL 4: Vox Collegiate will improve academic and social-emotional outcomes for our African American students.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Vox Collegiate has not been identified as a school eligible for comprehensive support and improvement.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Not applicable.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Not applicable.

Stakeholder Engagement

A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.

The LCAP is vetted and developed by several school stakeholders who are familiar and contemplative of Vox Collegiate's mission and goals. The stakeholders that provide input across the school year represent various community members that include the school's 6-8th grade students; parents, school leadership and staff members. All stakeholders approach the formation process of the LCAP thoughtfully and reflectively. Recognizing that the academic development of a student is important, Vox stakeholders also acknowledge that the academic component is but one part of the whole child; socio-emotional development is equally, if not more important. For that reason, Vox Collegiate seeks strengthening intended outcomes in the following three areas:

- Academic Performance
- Student Wellbeing (physical and social-emotional safety)
- Family Engagement
- African American Students' Academic and Social Emotional Outcomes

Throughout the 2022-23 Academic Year, the school collected input using the following methods:

- School Site Council Meetings
- Governing Board Meetings
- Cafecitos
- ELAC Meetings
- Through ongoing communication and data collection between front office staff & families
- One-on-One staff meetings with Head of School
- Ongoing staff surveys
- Ongoing communication and feedback loops with educational and mental health partners

Notifications went out to the above listed stakeholders through email, social media, and the school's 2-way communication channel, ParentSquare, and in where required under the Brown Act - through public-posted notifications at the entrance area of the school. At each instance, stakeholders were informed of opportunities to join and participate in meetings, as well as how to provide written comments regarding proposed actions and expenditures; and options for remote participation in public hearings and solicitation of feedback of stakeholders who do not have Internet access, or who speak languages other than English.

- The School Site Council is composed of parents and staff. The SSC and English Learner Advisory Council (ELAC) triannually throughout the year to reflect on data and provide input on plan development. Our board meets monthly as a public meeting with the opportunity for

public comment. We promoted parent participation in public meetings and public hearings through our school communication system, website, and agenda posting. Virtual meetings conducted via video conference had telephone call-in access. We provided translation as needed.

- Teachers provided feedback during regular staff meetings and surveys.
- Principals, administrators, other school personnel provided feedback during regular leadership team meetings.
- Students Surveys / classroom discussions with students regarding their experience, perspectives, and needs. Teachers shared student feedback from these discussions with school leadership to inform plans.

A summary of the feedback provided by specific stakeholder groups.

Parents

- Desire for additional elective options & extracurricular activities
- Desire for greater communication and transparency regarding grades, discipline, and attendance
- Desire for continued access to technology (devices and online platforms)

Teachers/School Staff/Administrators

- Concerned with student learning loss – literacy and math
- Concerned with student discipline
- Desire for additional time for staff collaboration
- Desire for greater teacher support with culture
- Desire for greater family involvement

Students

- Desire for more social opportunities with peers
- Desire for more elective courses & clubs
- Desire for greater autonomy
- Desire for continued access to technology (devices and online platforms)

A description of the aspects of the LCAP that were influenced by specific stakeholder input.

Goal 1, Actions 2 & 4 – Restorative Practices, Social Emotional & Mental Health Supports

In the 2021-22 school year, Vox Collegiate restructured its student discipline and supports program to better support students upon their return to in-person instruction. The school adopted an evidence-based social emotional curriculum to be taught across all grades. School consequences were revisited to ensure they are culturally responsive and logically tied to helping student make positive choices moving forward. This new structure showed increasing effectiveness in the 2022-23 school year. The school will continue with these effective practices for the 2023-24 school year.

Goal 1; Action 3- Enrichment Courses

Vox will add additional Student Enrichment courses in the 2023-24 school year – Visual Art, Dance, Music, Speech & Debate

Goal 1; Action 7 – Safety

Vox will continue to invest in safety, including maintaining recommended safety protocols and increasing awareness of advised safety precautions from dangers coming from outside of the school.

Goal 2, Action 5 – Professional Development

Vox is making a greater investment in teacher growth to ensure teachers are equipped to independently grow in the practice in an ever-changing teaching environment.

Goal 3, Actions 1 & 2 – Family Engagement & Communication

Vox is prioritizing partnership and communication with families. Parents will be a regular part of our school and will have greater transparency with all school functions.

GOAL 4, Actions 1, 2, & 3 - African American Students' Academic and Social Emotional Outcomes

Vox Collegiate was identified as a school in need of meeting Additional Targeted Support and Improvement (ATSI) planning requirements. Vox is prioritizing sustaining community partnerships with educational and mental health partners in the development of our ATSI plan, goals, and progress monitoring. Volunteers of America and SHIELDS for Families have provided resources, feedback, and continued opportunities for collaboration to best support the academic and social emotional success of our African American students. These partnerships also inform and guide communication methods and partnerships with families of African American students to increase transparency and teamwork to improve the academic performance and social emotional supports for African American students.

Goals and Actions

Goal 1

Goal #	Description
1	Vox Collegiate will foster a safe and positive school culture and climate.

An explanation of why the LEA has developed this goal.

While we have made great gains in fostering a safe and positive school culture and climate, there is still work to be done to improve our chronic absenteeism and suspension rates.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Attendance Rate	19-20: 94.9% (prior to school closures) 20-21: 88.7% (during school closure)	21-22: 87%	22-23: 90%		96%

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

No substantive differences.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

No material differences.

An explanation of how effective the specific actions were in making progress toward the goal.

Vox Collegiate's efforts to improve school climate and student wellness measured by suspension and expulsion rates were highly effective. The school reduced expulsions to 0% and suspensions from 9.5% to 0.6%. The school will continue its focus on student behavior through alternative consequences and supporting student mental health through partnerships.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

A major change in actions that will come in the 2023-24 school year is related to student absenteeism. While much of the challenge related to student attendance in 2021-22 and 2022-23 can be attributed to COVID-19, the matter must be addressed to ensure students are receiving a cohesive education. Vox Collegiate showed improvement in its attendance rate in 2022-23, but still must make progress towards the overall LCAP measurement goal of 96%. The school will utilize additional support staff to implement attendance plans and engage with families to ensure that students have the required supports to attend school every day. The staff members will have designated roles to successfully implement the attendance protocol and plans for students. Attendance plans and updates will be reviewed by the Culture Team to consistently address concerns and note progress.

A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.

Goal 2

Goal #	Description
2	Vox Collegiate will ensure that all students are academically prepared for college by the time they graduate high school.

An explanation of why the LEA has developed this goal.

Vox Collegiate continues to rebuild from the COVID-19 pandemic and school closures. As a middle school, it is crucial that students make academic gains towards high school readiness during their time at Vox Collegiate. The schools academic program is designed to make progress towards student proficiency in core subject prior to 8th grade culmination. Because many of our students come to us below grade level, we must invest heavily in instructional resources and supports that will ensure accelerated academic growth and readiness for college.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
% of teachers fully credentialed and appropriately placed (CCTC)	100%	100%	100%		100%

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Vox Collegiate will be adding an additional week of professional development prior to the start of the 2022-23 school year to ensure teachers have adequate time to collaborate and prepare for the upcoming school year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

No material differences.

An explanation of how effective the specific actions were in making progress toward the goal.

TBD based on CAASPP data.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no substantive changes to planned goals and actions.

A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.

Goal 3

Goal #	Description
3	Vox Collegiate will partner with parents to ensure parents are informed about their child's progress and have opportunities to be involved at the school.

An explanation of why the LEA has developed this goal.

In order to achieve our academic growth and achievement goals, we know that parents are critical partners in the endeavor. We know that parents of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Parent Survey: % of believe school is safe and feel well-informed	Initial data not available.	TBD	100%		>95% >90%
% of parents participating in trimester family surveys and conferences	Initial data not available.	100%	100%		75%

Goal Analysis [2022-23]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

No material differences.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures.

No material differences.

An explanation of how effective the specific actions were in making progress toward the goal.

The school achieved a 100% participation rate in Trimester 1 and 2 conferences with parents/guardians, which provided significant opportunity for family engagement. The school will seek to increase opportunities for parent-teacher in-person contact in the 2022-23 school year.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We have redrafted the language of this goal so that it reads more clearly.

In order to maintain participation rates in 22-23 and beyond, we will continue to double down on communication and incentives for conference participation. When we have opportunities to meet with families in person, we will provide laptops for parents to complete surveys.

A report of the Estimated Actual Expenditures for last year's actions may be found in the Annual Update Expenditures Table.

Goal 4

Goal #	Description
4	Vox Collegiate will improve academic and social-emotional outcomes for our African American students.

An explanation of why the LEA has developed this goal.

In order to support our African American students achieve their academic and social-emotional outcomes, we know that the students will need to have tailored support and community building. We will continue to partner with SHIELDS for Families and Volunteers of America to determine best practices in connecting with, mentoring, and academically supporting African American students. We know that our African American students may benefit from additional mentorship opportunities that increase their ability to feel seen and gain specific feedback and guidance to be successful in a growing multi-ethnic school. Teachers and staff will have designated professional development to strengthen culturally relevant pedagogical practices. In addition, teachers and staff will consistently analyze data to make data informed decisions to attain academic and social-emotional success for African American students.

Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
% of AA students meeting growth targets on NWEA MAP in Reading and Math	<p>Reading: 80% of AA students met or exceeded growth targets or were at grade level</p> <p>Math: 64% of AA students met or exceeded growth targets or were at grade level</p>	Not Applicable	<p>Reading: 80% of AA students met or exceeded growth targets or were at grade level</p> <p>Math: 64% of AA students met or exceeded growth targets or were at grade level</p>		<p>Reading: 75% of students meet growth targets or are performing at grade level</p> <p>Math: 75% of students meet growth targets or are performing at grade level</p>
% of AA meeting or exceeding standards on ELA and Math CAASPP, schoolwide and for all numerically significant subgroups	<p>ELA: AA students 83.7 points below standard, very low</p> <p>Math: AA students 157.7 points below standard, very low</p>	Not Applicable	TBD		<p>ELA: African American: 50%</p> <p>Math: African American: 45%</p>

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students for [2023-24]

Projected LCFF Supplemental and/or Concentration Grants	Projected Additional LCFF Concentration Grant (15 percent)
\$712,904	\$85,836

Required Percentage to Increase or Improve Services for the LCAP Year

Projected Percentage to Increase or Improve Services for the Coming School Year	LCFF Carryover — Percentage	LCFF Carryover — Dollar	Total Percentage to Increase or Improve Services for the Coming School Year
38.62%	0.00%	\$0.00	38.92%

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

A- Climate and Culture

Needs, Conditions, Circumstances

In 2018-2019, our Socioeconomically disadvantaged students had a suspension rate of 18.3% and our African American students had a rate of 48.3%. We improved greatly in this area over 2019-20, with our Socioeconomically disadvantaged students seeing a decrease to a 9.8% suspension rate and our African American students 25%. In the 2021-22 school year we continued the positive trend of reducing suspension and expulsion rates across all student groups, resulting in an overall suspension rate of 0.6% and an African American suspension rate of 2.8%. While data is not final, we anticipate 2022-23 results will show even more improvement, including an African American suspension rate of 0%.

Actions

Based on the data, we see positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically. Key components of these additional efforts include regular events reinforcing school culture and celebrating successes. We have added extensive training in Positive Behavior Intervention Supports (PBIS). We also provide social emotional learning lessons and enrichment opportunities which foster belonging, develop the whole child, and promote attendance and investment. Mental Health supports are also provided as a way to support the well-being of our students and remove additional barriers to learning and engagement. We also provide attendance support that is personalized to the needs of the student to promote and maintain regular attendance.

Restorative Practices

Social Emotional Learning and Mental Health

Attendance Initiatives

Expected Outcomes

By implementing strategic actions in support of culture and climate, we hope to achieve our goals in academic growth and achievement, described below, and to maintain positive indicators that students feel safe and connected to the Vox Collegiate community. We will also measure progress toward, high attendance, and low chronic absenteeism, and low suspensions. (see above).

B- Academic Growth and Achievement

Needs, Conditions, Circumstances

In reviewing the 2021-22 ELA and Math performance of our English Learners and Socioeconomically Disadvantaged students, we find that both groups are struggling with Math and ELA achievement. For Math, 12.4% of our Socioeconomically Disadvantaged students scored at or above standard, and English Learners 0%. These results are not significantly different than comparable schools, serving the same grades in Los Angeles. However, the low performance in math of student groups reflects a need for more intensive math intervention and small group instructional support which is reflected in this LCAP.

For ELA, 24.8% of our Socioeconomically Disadvantaged students score at or above standard, and English Learners 2.6%. Like Math, ELA has proved to be a challenge for students returning to in-person instruction after school closures. We view results for the 2021-22 school year as a new baseline upon which to build as the school establishes systems to recover learning loss from the pandemic. NWEA MAP results based on 2022-23 academic initiatives evidence annual student academic growth that we anticipate leading to significantly increased proficiency.

Actions

Based on a review of data, we have designed the 21-24 LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. We have selected a variety of curricular and instructional resources, supported by appropriate technology, that allow students to learn and practice both at grade level and with personalized content to fill gaps and advance skills. Our intervention and tutoring program allows students to get small group and individualized support based on NWEA MAP and CAASPP data, classroom assessments, and daily exit tickets. We have designed a comprehensive program of Literacy Development to ensure that our students become proficient and are able to close existing gaps towards grade level proficiency.

Schoolwide Literacy Development

Weekly individualized feedback cycles between students and teachers

Intervention and Tutoring

Expected Outcomes

By implementing the identified actions, we will ensure steady growth in our academic outcomes, such as CAASPP ELA and Math, English Learner Progress, Reclassification rates. Current targets aim for at least approximately 20 points growth within the next three years for both ELA and Math (see expected outcomes in Goal 2), 100+ Lexile growth for each group, and 25 points' growth in the English Learner Progress Indicator and a slight improvement each year (1pt+) in our reclassification rate. We plan to use NWEA MAP assessment data to gauge progress throughout the year.

B- Family Engagement

Needs, Conditions, Circumstances

In order to achieve our academic growth and achievement goals, we know that parents are critical partners in the endeavor. We know that parents of our socioeconomically disadvantaged students may benefit from additional opportunities that increase their ability to support their students' learning, to advocate for their needs and prepare to successfully navigate the systems in high school and college. Parents of English Learners benefit from additional outreach to support their students in English Language Development. We also know that in order to be successful, we need to provide additional communication, in languages other than English where needed, and that the school needs continual parent input to inform plans.

Actions

Family Communication & Events

Expected Outcomes

By implementing a comprehensive Family Engagement program, we hope to achieve our goals in academic growth and achievement, described above. We also believe this work will support us in achieving our goals in climate and culture, described in the plan and below. We will measure progress in our family engagement efforts by specific indicators around parent perceptions of their connectedness to school and the response rate to parent surveys.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Based on academic and school discipline progress that could be gathered during the 2022-23 school year, Vox Collegiate increased or improved services for unduplicated pupils. This included more targeted intervention programs, an increase in staffing time allocated to maintaining and improving the quality of school academic instruction. The expansion of the role of the school's Culture Coordinator and further development of school culture team, including the school's partnership with SHIELDS for Families, to work alongside the school's leadership team to conduct regular professional development and create, revise and monitor curriculum and classroom management for teachers.

Because of the school's high unduplicated pupil percentage, the school spends most of its Federal Title funding and its LCFF supplemental and concentration grant funding on a school-wide basis. Specific spending categories are identified throughout the goals in this LCAP and are summarized in the spending tables at the end of the document.

Spending is principally directed to the LCAP goals that each item supports and is focused at an overall level on increasing student achievement as measured by the NWEA Map and state assessments, cultivating a safe and healthy school climate and culture, and offering a range of student and family supports. We believe that the actions described above are the most effective way to meet the goals outlined in this LCAP for all our students including our unduplicated pupils.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

Vox Collegiate has an unduplicated pupil percentage in excess of 55% and therefore it did receive a concentration grant as part of its 2022-23 LCFF funding. The school anticipates continuing to receive concentration grant funding in 2023-24. The school has estimated the size of its concentration grant add-on at \$74,591 in 2023-24. The school used add-on funding in 2022-23 to hire additional instructional assistant to support with intervention, tutoring, ELD and other small group student supports, and it anticipates using the funding in 2023-24 in the same manner.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A	1:23
Staff-to-student ratio of certificated staff providing direct services to students	N/A	1:20.5

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

For additional questions or technical assistance related to the completion of the LCAP template, please contact the local COE, or the California Department of Education's (CDE's) Local Agency Systems Support Office by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires LEAs to engage their local stakeholders in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have ten state priorities). LEAs document the results of this planning process in the Local Control and Accountability Plan (LCAP) using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California *Education Code* [EC] 52064(e)(1)). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. Local educational agencies (LEAs) should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Stakeholder Engagement:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful stakeholder engagement (EC 52064(e)(1)). Local stakeholders possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
 - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC 52064(b)(4-6)).

- Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC 52064(b)(1) & (2)).
- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC 52064(b)(7)).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with stakeholders that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a stakeholder engagement tool.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for stakeholders and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing, but also allow stakeholders to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse stakeholders and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and stakeholder engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard, how is the LEA using its budgetary resources to respond to student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics or a set of actions that the LEA believes, based on input gathered from stakeholders, research, and experience, will have the biggest impact on behalf of its students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

General Information – Briefly describe the students and community. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA's LCAP.

Reflections: Successes – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, stakeholder input, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

Reflections: Identified Need – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the "Red" or "Orange" performance category or any local indicator where the LEA received a "Not Met" or "Not Met for Two or More Years" rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

LCAP Highlights – Identify and briefly summarize the key features of this year's LCAP.

Comprehensive Support and Improvement – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified:** Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools:** Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

- **Monitoring and Evaluating Effectiveness:** Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Stakeholder Engagement

Purpose

Significant and purposeful engagement of parents, students, educators, and other stakeholders, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such stakeholder engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC 52064(e)(1)*). Stakeholder engagement is an ongoing, annual process.

This section is designed to reflect how stakeholder engagement influenced the decisions reflected in the adopted LCAP. The goal is to allow stakeholders that participated in the LCAP development process and the broader public understand how the LEA engaged stakeholders and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the stakeholder groups that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP. Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective stakeholder engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE's website: <https://www.cde.ca.gov/re/lc/>.

Requirements and Instructions

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for stakeholder engagement in the LCAP development process:

Local Control and Accountability Plan:

For county offices of education and school districts only, verify the LEA:

- a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

- b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
- c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.
- d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.
- e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the stakeholder process and how the stakeholder engagement was considered before finalizing the LCAP.”

Describe the stakeholder engagement process used by the LEA to involve stakeholders in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required stakeholder groups as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with stakeholders. A response may also include information about an LEA’s philosophical approach to stakeholder engagement.

Prompt 2: “A summary of the feedback provided by specific stakeholder groups.”

Describe and summarize the stakeholder feedback provided by specific stakeholders. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from stakeholders.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific stakeholder input.”

A sufficient response to this prompt will provide stakeholders and the public clear, specific information about how the stakeholder engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the stakeholder feedback described in response to Prompt 2. This may include a description of how the LEA prioritized stakeholder requests within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by stakeholder input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions

- Inclusion of action(s) as contributing to increased or improved services for unduplicated services
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to stakeholders what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to stakeholders and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal:** A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
- **Broad Goal:** A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- **Maintenance of Progress Goal:** A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

Focus Goal(s)

Goal Description: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with stakeholders. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

Goal Description: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Explanation of why the LEA has developed this goal: Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Goal Description: Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with stakeholders, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Explanation of why the LEA has developed this goal: Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g. high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–2021 outcomes on some

metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g. graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric:** Indicate how progress is being measured using a metric.
- **Baseline:** Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome:** When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome:** When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome:** When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023-24:** When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for Year 3 (2023-24)
Enter information in this box when completing the LCAP for 2021–22.	Enter information in this box when completing the LCAP for 2021–22.	Enter information in this box when completing the LCAP for 2022–23. Leave blank until then.	Enter information in this box when completing the LCAP for 2023–24. Leave blank until then.	Enter information in this box when completing the LCAP for 2024–25. Leave blank until then.	Enter information in this box when completing the LCAP for 2021–22.

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

Actions: Enter the action number. Provide a short title for the action. This title will also appear in the expenditure tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary expenditure tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

Actions for English Learners: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

Actions for Foster Youth: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

Goal Analysis:

Enter the LCAP Year

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.
- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures. Minor variances in expenditures do not need to be addressed, and a dollar-for-dollar accounting is not required.
- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for stakeholders. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides stakeholders with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improved services for its unduplicated students as compared to all students and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of stakeholders to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

This section must be completed for each LCAP year.

When developing the LCAP in year 2 or year 3, copy the “Increased or Improved Services” section and enter the appropriate LCAP year. Using the copy of the section, complete the section as required for the relevant LCAP year. Retain all prior year sections for each of the three years within the LCAP.

Percentage to Increase or Improve Services: Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

Increased Apportionment based on the enrollment of Foster Youth, English Learners, and Low-Income Students: Specify the estimate of the amount of funds apportioned on the basis of the number and concentration of unduplicated pupils for the LCAP year.

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7% lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action(s))

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100% attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55%: For school districts with an unduplicated pupil percentage of 55% or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55%: For school districts with an unduplicated pupil percentage of less than 55%, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions **are the most effective use of the funds** to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

For schools with 40% or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40% enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

“A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.”

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

Expenditure Tables

Complete the Data Entry table for each action in the LCAP. The information entered into this table will automatically populate the other Expenditure Tables. All information is entered into the Data Entry table. Do not enter data into the other tables.

The following expenditure tables are required to be included in the LCAP as adopted by the local governing board or governing body:

- Table 1: Actions
- Table 2: Total Expenditures
- Table 3: Contributing Expenditures
- Table 4: Annual Update Expenditures

The Data Entry table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included.

In the Data Entry table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action’s number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.

- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering “All”, or by entering a specific student group or groups.
- **Increased / Improved:** Type “Yes” if the action **is** included as contributing to meeting the increased or improved services; OR, type “No” if the action is **not** included as contributing to meeting the increased or improved services.
- If “Yes” is entered into the Contributing column, then complete the following columns:
 - **Scope:** The scope of an action may be LEA-wide (i.e. districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
 - **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
 - **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools”. If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans”. Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades K-5), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year”, or “2 Years”, or “6 Months”.
- **Personnel Expense:** This column will be automatically calculated based on information provided in the following columns:
 - **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
 - **Total Non-Personnel:** This amount will be automatically calculated.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e. base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.

- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
